OPTECH Streaming IP Video Solutions

Upgrade to IP Video. Stream Cable Channels, Bulletin Board Channels, Security Cameras, In-House Production Channels onto your network. Eliminate Analog Modulators, Amplifiers, Tuners and Coax! Decode Mpeg1/2/4 and Windows Media at the Teacher Workstation or with IP-Receivers. Broadcast from anywhere.

- Teach students live or on-demand, helping them learn faster and retain more.
- Inform your institution of new initiatives and empower your students, faculty, and staff.
- Monitor world events live and react in the classroom.
- Broadcast school events around the world and share them with alumni, parents, and students.
- Collaborate with faculty and participate in distance learning.

Additional Capabilities

- Custom Portable Broadcast Units
- Custom Encoding Stations
- Real-time Encoders
- Video Servers (Video-On-Demand)
- Video Content from Clearvue/Discovery.

OPTECH.net has been a leader in providing K-12 integrations for over 15 years.
